Call For Paper

2018 Asia-Pacific Conference on **Intelligent Medical**
November 16-18, 2018 | Chengdu, China

In the era of "Internet +", all walks of life are eager to explore innovation and progress. With the continuous emergence of mobile medical APPs and medical e-commerce providers to Internet hospitals, information-based and intelligent medical services have gradually become the trend of today. Since the concept of great health has been clearly put forward, people's demand for medical care has begun to undergo a qualitative change from passive to active. **Prof. De-Zhong Yao** from School of Life Science and Technology, UESTC, China (**Changjiang Scholar Professor | AIMBE Fellow**) will be the chairman. This event is hosted by Sichuan Institute of Electronics and Sichuan Society for Cognitive Science (SSCS), co-organized by University of Electronic Science and Technology of China, Sichuan University, etc. This conference includes four major parts: plenary speeches, invited speeches, oral and poster presentations. Forum planning focuses on academic research, technology, application, and other core contents. You are invited to participate in this great event for sharing ideas, latest research and culture in Chengdu.
